What if the new season of American Horror Story ([https://en.wikipedia.org/wiki/American\\_Horror\\_Story](https://en.wikipedia.org/wiki/American_Horror_Story)) took place in a haunted Studio 54? Well, headlining opening night would be Dolls (<https://www.facebook.com/DOLLSxx>). Nikki Milovanovic, formerly the lead singer of Canadian synth pop band The Royal Society ([https://nikkiawesome.files.wordpress.com/2012/02/nikki\\_awesome\\_tonymonacots.jpg](https://nikkiawesome.files.wordpress.com/2012/02/nikki_awesome_tonymonacots.jpg)), moved to London in 2013 to begin her solo career under her new moniker: Dolls. Part new wave, part gothic, all avant-garde Dolls is poised for a killer 2016.

Dolls' sophomore album, Eat It Up (dropping May 20th), is a combined effort with UK producer Fauxplay (<https://www.facebook.com/fauxplayUK/?fref=ts>) and we cannot wait for it to come out in all its synthy goodness.
